

I am writing as a supporter of Indiana's Telephone Privacy law.
I have read that the FCC is considering preempting state's existing law in favor of a lower national law. Please do not enact anything that lessens the privacy I now enjoy. Because of Indiana's "no call" law my family has enjoyed a much greater privacy from annoying phone calls. The "sales" calls have dropped from 8 to 10 per week to fewer than 2 per week now. Our family greatly appreciates the privacy that Indiana's law provides us. Please do not take anything away from us!

Thank you for considering my comments,

Sincerely, James Fagan
